About the IAQF, the GCARD's Inaugural Professional Society Partner

The International Association for Quantitative Finance (*formerly the IAFE*) is the professional society dedicated to fostering the profession of quantitative finance by providing platforms for the discussion of cutting-edge and pivotal issues in the field. Founded in 1992, the IAQF is composed of individual academics and practitioners from banks, broker dealers, hedge funds, pension funds, asset management firms, technology firms, regulatory bodies, accounting, consulting and law firms, and universities across the globe.

Through frank discussions of current policy issues, hosting programs to educate the finance community, and recognizing the outstanding achievements in the field, the IAQF acts as a beacon for the development of quantitative finance. Throughout its history, the IAQF's pre-eminent leadership has positioned us to respond with savvy to the evolving needs of the financial engineering community. The IAQF's programs – from our area-specific committees to our evening forums to the Financial Engineer of the Year Award – are designed to provide our membership with uniquely valuable activities to enhance their work in the field.

Why Join the IAQF?

As ever more attention is focused on quantitative finance, the IAQF stands out as the leading professional society with a mission to address the timely and innovative issues in the field. Our membership represents an unmatched level of expertise.

IAQF Members Enjoy:

- Access to exclusive content on our website**
 This includes access to the entire archive of the IAQF's former publication, the *Journal of Financial Engineering*.
- Free attendance to IAQF Evening Forums**
 The IAQF holds monthly talks and panel discussions on pressing topics in the field of quantitative finance and the policy issues that are just around the corner.
- Discounts to IAQF-Endorsed Conferences**
 As part of our educational mission, we endorse conferences that we believe our membership would value. Conference fees can be exorbitant and the discounts that our members usually receive often saves them a dollar amount exceeding the price of their IAQF membership.
- Invitations to our Annual Award Dinner**
 Our highest profile event, our Financial Engineer of the Year Award Dinner offers a unique opportunity to socialize with people making significant contributions to the field.

The IAQF offers Student, Academic, Young Practitioner and Practitioner Memberships, as well as Academic Affiliate Memberships to Masters-level academic programs in Quantitative Finance/Financial Engineering/Mathematical Finance or similar fields of concentration.
